(1) Lisez attentivement le texte ci-dessous :

The Peates regularly go abroad. They like travelling and going from one country to another. They try as much as possible to visit two different countries every year.

Three years ago Lance, his wife and their two daughters spent a fortnight in London. They travelled from France to England by plane. They had previously booked two rooms in a lovely B&B not too far from the most famous British monuments. During their stay in the English capital city they did some shopping and visited several museums. To move around they had the choice between the tube, the taxi, the bus or even walking. They enjoyed their two weeks in London so much that they have recently decided to go back there for their next holiday. They will probably choose the Eurostar since it is faster and more convenient. It goes from one capital to the other in only three hours !
